HERO HEADLINE

Built for the Trade. Designed for the Job Site.

N1 Payments gives contractors and construction businesses a faster, smarter way to take card payments wherever the work takes you. No complicated applications, no banks turning you away, no waiting days for your money.

Mobile terminals with built-in SIM. Same-day or next-day settlement. Support that actually picks up the phone.

Hero Supporting Tag Line Options

Option A: "Payments made simple for contractors. Get paid on site, same day."

Option B: "The payment provider that says yes when others say no."

Option C: "Your business moves. Your card machine should too."

Value Proposition Strip (3 Icons)

Approved Where Others Refuse	Mobile Terminals With Built-In SIM	Next-Day Settlement as Standard
Construction and trade businesses are often flagged as high-risk by mainstream banks. We specialise in getting contractors approved and up and running fast.	Take payments from any site, any location. Our 4G-connected terminals work where Wi-Fi doesn't, no hotspot, no hassle.	Your money lands in your account the next business day. No holding periods, no waiting. Cash flow keeps your jobs moving.

About Us Section

ABOUT N1 PAYMENTS

Independent. Local. On Your Side.

N1 Payments is a specialist payment services provider built around the needs of contractors and construction businesses. We understand that your work doesn't happen at a fixed till point; it happens on driveways, in lofts, on building sites, and at customers' front doors.

Unlike the major banks and generic payment providers, we don't apply a one-size-fits-all approach. We work directly with contractors to find the right setup, get you approved, and make sure you're supported from day one and every day after.

How We Help Section

Three call-to-action paths (mirrors current site structure):

I'm a Contractor Starting Out

New to taking card payments? We'll get you set up with everything you need: terminal, account, support in days, not weeks.

[\[Get Started \]](#)

I Want to Switch Provider

Fed up with high fees, slow settlements, or a provider who doesn't understand the trade? Switching is simpler than you think.

[\[Compare & Switch \]](#)

Client Testimonials Section

NOTE: We will replace the below part with direct testimonials from contractor clients.

"We take payments on site every day. N1 sorted us with a terminal that actually works wherever we are, and we never miss a payment due to a signal."

[Contractor Name], [Trade / Company]

FAQ Section

Retained from current site, updated with contractor-specific questions:

Question	Answer
I was declined by my bank. Can I still apply?	Yes. We work with acquirers who understand the construction trade. Many of our clients came to us after being turned away elsewhere. Contact us and we'll assess your application honestly.
Does the card machine work on a building site with no Wi-Fi?	Yes. All our terminals include a roaming SIM card as standard included in the price. They connect via 4G wherever there's mobile signal, so no Wi-Fi is needed.
When do I receive my money?	Next business day as standard. For some businesses, same-day settlement is available. We'll confirm at the time of application.

Can I have multiple terminals for my team?	Absolutely. Our scalable terminal solutions are designed for contractor businesses with field teams. All devices can be managed under a single account with a central reporting portal.
Can I take a deposit and then the final payment separately?	Yes. Our Pay by Link and Virtual Terminal solutions allow you to send a payment request for a deposit upfront, and a second request on job completion all without the customer needing to be present.

N1 Flexi Slim, Lightweight, Site-Ready

- The slimmest mobile payment terminal in our range
- Designed for tradespeople who are always on the move
- Built-in SIM, no Wi-Fi dependency
- Perfect for sole traders and small contractor teams

N1 Engage Full Functionality for Larger Teams

- Multi-device setup for construction businesses with field operatives
- Centralised account management and transaction reporting
- Scalable add devices as your team grows
- Ideal for businesses managing multiple concurrent jobs and sites

Why Contractors Choose N1 Payments

We Approve What Others Decline

The construction industry is often flagged as high-risk by mainstream banks and acquirers. N1 Payments works with specialist acquirers who

No PCI Hassle

We handle PCI compliance for you so you can focus on the job, not the admin.

understand trade businesses. We get contractors approved.

SIM Included in the Price

Every terminal comes with a roaming SIM card included. No extra cost, no contracts, no Wi-Fi required, just connectivity wherever you need it.

24/7 Support That Knows Your Name

We're a local, independent provider. When you call us, you speak to someone who knows your account, not a call centre script.

ONLINE PAYMENTS PAGE

Page focus: Remote and off-site payment tools for contractors deposits, invoices, phone payments.

ONLINE PAYMENTS FOR CONTRACTORS

Get Paid Before the Job Starts. And When It's Done.

N1 Payments gives contractors the tools to collect deposits before work begins, take staged payments through a project, and get paid on completion all without the customer needing to be present.

[\[Find Out More \]](#)

Pay by Link

Send a secure payment link via WhatsApp, text, or email and let your customer pay in minutes. No card machine needed. Ideal for:

- Collecting a deposit before starting a job
- Taking payment remotely when you're not on site
- Following up on outstanding invoices
- Customers who prefer to pay from home at their convenience

Virtual Terminal

Take card payments over the phone through our secure virtual terminal. Log in via browser, enter the customer's card details (with their consent), and get paid instantly. No terminal required, ideal for office-based admin staff taking inbound calls.

Payment Gateways

Integrate card payments directly into your website or CRM.

BUSINESS FUNDING PAGE

BUSINESS FUNDING FOR CONTRACTORS

Cash Flow That Keeps Pace With Your Projects.

Construction is a cash-intensive business. Materials upfront, labour to pay weekly, and customers who sometimes take time to settle. N1 Payments Business Funding is designed to bridge that gap giving you fast access to working capital when you need it most.

[\[Check Your Eligibility \]](#)

Key Features

- Access funding based on your card payment volumes no lengthy bank applications
- Flexible repayments that move with your income
- Fast decision, fast access keep your projects on track
- No fixed monthly payments you repay as you earn
- Available to N1 Payments merchant clients

Use Cases for Contractors

- Purchase materials ahead of a large contract
- Bridge the gap between invoice date and payment date
- Take on a new project without waiting for the last one to settle
- Invest in new tools, equipment, or additional vehicles

ABOUT US PAGE

ABOUT N1 PAYMENTS

We Work With the Businesses That Build Britain.

N1 Payments was founded on a simple idea: payment services should be straightforward, transparent, and built around the people who use them. We've spent years helping businesses take card payments and now we're channeling everything we've learned into serving one industry better than anyone else: contractors and construction.

We know this industry doesn't fit neatly into the boxes that mainstream banks use. Contractors are mobile. They work at customers' homes, on building sites, and out of their vans. They need terminals that go where the job is, not a fixed till that sits on a counter.

We also know that too many contractors have been turned away by payment providers who don't understand the trade. We've made it our business to change that. We work with acquirers and funders who understand construction and we won't give up on your application without exploring every option.

Independent. Local. Reachable. That's N1 Payments.
